01/06/2023 – 31/08/2023
Assistance in organizing teamwork, preparing simple documentation and reports, fulfilling manager's assignments, and supporting communication between project participants.

Vention Ltd Tashkent, Uzbekistan

Backend Node.js intern
06/05/2025 – Current
At Vention, I'm focused on strengthening my backend skills with Node.js and Express while learning TypeScript for more maintainable code. I'm also working with MongoDB, PostgreSQL and MySQL to improve my database knowledge, exploring AWS services, and gaining practical experience with Docker and CI/CD pipelines. This internship is helping me grow as a backend developer and apply my skills in projects.

EDUCATION AND TRAINING

15/09/2024 – CURRENT Tashkent

ABOUT ME

About me

I am a second-year student at the University of Westminster, specializing in full-stack development with React and Node.js. Passionate about building modern web applications, I focus on both frontend and backend development, striving to create reliable, scalable, and user-friendly solutions. I have a strong interest in web application architecture, efficient data management, and user experience optimization. I enjoy solving complex problems, collaborating with teams, and leveraging new technologies to develop innovative products.
